

Atomize Overview

Atomize takes a deep dive into the past, present, and future to set the optimal price for your room in real time. It analyses competitive intel, historical trends, upcoming demand, local events, and even price differences between room types to find that sweet spot. Plus, it's always one step ahead, predicting how each price change will impact surrounding days.

True AI capabilities

Atomize is not one of the traditional, rule-based RMSs - Atomize has AI at its core which means our pricing engine is built on sophisticated, self-learning algorithms and the system adapts over time to automatically become tailored to deliver the best results for your business.

	REAL-TIME PRICE OPTIMIZATION
	24-MONTHS PRICING AND FORECASTING
